	3 DOLY DET/	
	In early Hovember, the residents in Rathenow believed that the Arado plant on the road to Premnitz would be vacated and be occupied by VPs. 3	
	On 5 November, the Kraftfahrer Kaserne fed about 600 soldiers, including about 250 to 300 soldiers who had errived from the Fremritz cantonment in late October. As training activity was noticed. On 25 October, 7 x 152-mm model 43 field howitzers were seen in the Kraftfahrer Laserne.	
	On 5 November, about 300 soldiers were fed in the Pionier Raserne. Bight to ten 122-mm mortars were seen in a shed. Three other sheds were razed and the construction material was houled away to the former German army ration supply depot.	
	On 5 Lovember, the Infanterie Maserne at the Mordbehnhof reilroad station fed about 200 soldiers.	
,	In late October, the LVD office previously located on Fontane Strasse moved to the former Rech office on Schuetzen Strasse.	
	Comment. The information indicates no changes in the location of units in Rathenow over previous reports. The referenced report had alread, indicated the transfer from the Kraftfahrer Reserne of elements of the 10th How Arty Drig (UL). The	
	information confirms that these elements, as had been surmised are stationed in Altengrabow. The reference report also indicated that the installation was now occupied by the 25th RL Brig from Premnitz. It can, however, not yet be determined whether only elements of the afore mentioned brigade went to Altengrabow to vacate quarters for the 25th RL Brig. The units mentioned in paragraph 4 of the present report tend to indicate that they were	
	sub-units of the units believed stationed in the individual barracks installations. The mess strength given in para- rashs 5 to 11 would then be considerably underestimeted
